

2024 LEGISLATIVE REPORT & SCORECARD

PRESIDENT'S LETTER

At Mental Health Colorado, we advocate each legislative session for state policies that will promote healthier minds across the lifespan for all Coloradans. We do this work in recognition that Colorado for years has lagged behind when it comes to protecting the most vulnerable members of our communities and ensuring everyone in our state has the resources and support they need to get high-quality mental health and substance use care.

Each year, with the help of our allies in Colorado's legislature and our statewide Brain Wave network of grassroots advocates, we chip away at systemic barriers that stand in the way of our well-being. Not only do we work to improve access to care, but we move policy forward to raise our standard of care to ensure care is high-quality, compassionate, and meets the unique needs of each Coloradan, no matter who they are or where they live.

During the 2024 legislative session, we passed key legislation to promote the health and well-being of our communities. That includes bipartisan policies to disentangle mental health from criminal justice, expand access to health services for people on Medicaid, and improve care for people with eating disorders. This year, 69 lawmakers received perfect scores on our legislative scorecard. Thanks to this demonstrated commitment from our elected officials, we're hopeful for a future where each Coloradan has the chance at a happy, healthy life.

While there is still much more work to be done to address the serious mental health crisis in our state, we're proud of the progress we've made this year and look forward to continuing this work to prioritize mental health in Colorado.

VINCENT ATCHITY
PRESIDENT & CEO

LEGISLATIVE SUMMARY

times Mental Health Colorado staff testified in committee

times Brain Wave advocates testified in committee

advocates attended Legislative Education & Advocacy Day at the Capitol

advocates participated in the Suicide Prevention Advocacy Day

emails sent to legislators advocating for our agenda bills

media stories about our agenda bills

JOIN THE BRAIN WAVE

The Brain Wave is Mental Health Colorado's statewide network of advocates. Nearly 2,000 Brain Wave members across the state help illustrate the barriers to care that Coloradans face by sharing lived experience with lawmakers, the media, and community partners. As a Brain Wave member, your voice shapes public policy and public opinion.

JOIN THE BRAIN WAVE

STRONG START FOR ALL CHILDREN

We develop brains and behaviors at a rapid pace, not fully maturing until as late as our mid-20s. Preventative care and healthy learning environments are central to ensuring healthy minds and bright futures.

SB24-001: CONTINUE YOUTH MENTAL HEALTH SERVICES PROGRAM

SENATORS DAFNA MICHAELSON JENET AND LISA CUTTER AND REPRESENTATIVES KYLE BROWN AND MANNY RUTINEL

This bill makes the "I Matter" program, which was established in 2021 to provide Colorado youth with up to six free therapy sessions, permanent. Additionally, this bill requires data collection on the program's efficacy.

HB24-1038: HIGH ACUITY CRISIS FOR CHILDREN AND YOUTH

REPRESENTATIVES MARY YOUNG AND BRANDI BRADLEY AND SENATORS BARBARA KIRKMEYER AND RHONDA FIELDS

This bill requires the Department of Health Care Policy & Financing, the Behavioral Health Administration, and the Department of Human Services to develop a system of care for children and youth with complex behavioral health needs. This bill also creates the residential child care provider training academy, a system to establish and monitor quality standards for residential child care providers and increase reimbursement rates for qualified residential treatment programs.

HB24-1136: HEALTHIER SOCIAL MEDIA USE BY YOUTH

REPRESENTATIVES JUDY AMABILE AND ROSE PUGLIESE AND SENATORS LISA CUTTER AND JIM SMALL WOOD

This bill requires the Department of Education to create and maintain a resource bank of materials on the health impacts of social media use on youth. It also requires social media platforms to display a pop-up notification to youth after spending an hour on social media or being on the platforms between 10 PM – 6 AM.

HB24-1285: STUDENT WEIGHT-BASED BULLYING PREVENTION

REPRESENTATIVE ELIZA HAMRICK AND SENATORS JANICE MARCHMAN AND BOB GARDNER

This bill adds bullying based on weight, height, or body size to the list of prohibited bullying behaviors, subject to school district and charter school discipline policies and reporting requirements.

Strong, healthy families are vitally important to strong, healthy individuals. Education, childcare, stable housing, meaningful employment, and access to health care are all essential to family well-being.

HB24-1217: SHARING OF PATIENT HEALTH CARE INFORMATION AGENDA BILL

REPRESENTATIVES JUDY AMABILE AND NAQUETTA RICKS AND SENATOR KYLE MULLICA

This bill clarifies what is allowable within federal privacy laws, such as HIPAA, for family members and caregivers to communicate with treating providers. This bill creates a "friends and family input form" and establishes a working group to discuss the feasibility of a centralized digital consent repository.

HB24-1223: IMPROVED ACCESS TO THE CHILD CARE ASSISTANCE PROGRAM

REPRESENTATIVES JENNY WILLFORD AND LORENA GARCIA AND SENATORS LISA CUTTER AND DAFNA MICHAELSON JENET

The bill overhauls the Colorado Child Care Assistance Program (CCCAP) by streamlining and simplifying the application process by requiring only necessary information to determine eligibility. This bill updates the provider reimbursement model to be based on enrollment instead of attendance, strengthens pathways for home-based childcare centers to become licensed providers, includes substance use disorder treatment programs as an eligible activity, and requires the Department of Early Childhood Education to conduct a feasibility study of delinking eligibility for the federal child and adult care food program from CCCAP.

HB24-1311: FAMILY AFFORDABILITY TAX CREDIT

REPRESENTATIVES CHRIS DEGRUY KENNEDY AND JENNY WILLFORD AND SENATORS FAITH WINTER AND JAMES COLEMAN

This bill creates a permanent new family tax credit. It expands the incomes that can receive the credit to \$85,000 for single filers and \$95,000 for joint filers and extends the age eligibility for kids so that families with kids between the ages of 6 and 16 can receive the credit.

HB24-1459: BIRTH EQUITY

REPRESENTATIVES LESLIE HEROD AND LORENA GARCIA AND SENATORS JANET BUCKNER AND JULIE GONZALES

This bill requires jail staff, the Department of Corrections, or a private contract prison to comply with current law regarding the use of restraints on individuals who are in custody and experiencing labor, delivery, or postpartum recovery. This bill also requires correctional facilities and private contract prisons to develop policies, including a system to store human milk. It requires each healthcare facility that provides labor and delivery services to establish a policy creating a process for a facility to receive individuals from locations other than a licensed facility.

SB24-175: IMPROVING PERINATAL HEALTH OUTCOMES

SENATORS RHONDA FIELDS AND JANET BUCKNER AND REPRESENTATIVES BARBARA MCLACHLAN AND IMAN JODEH

This bill requires health benefit plans to provide coverage for doula services in the same scope and duration as Medicaid's request for federal authorization for coverage, authorizes the Colorado Perinatal Care Quality Collaborative to track the implementation of the Colorado Maternal Mortality Review Committee's recommendations concerning disparities, requires hospitals to submit specified data on disparities in perinatal health care and outcomes, and requires the medical services board to create rules on the coverage for over-the-counter choline supplements.

ACCESS TO HOUSING, HEALTH CARE, SUPPORTS, AND SERVICES

Having a place to call home is essential to good mental health across the lifespan. Access to health care, supports and services prolongs life and enhances mental health outcomes.

HB24-1066: PREVENT WORKPLACE VIOLENCE IN HEALTH CARE SETTINGS AGENDA BILL

REPRESENTATIVES ELIZA HAMRICK AND LORENA GARCIA AND SENATORS DAFNA MICHAELSON JENET AND JULIE GONZALES

This bill would have required facilities to create workplace violence prevention committees that are required to review incidents of workplace violence in the facility quarterly and are responsible for creating a workplace violence prevention plan based on the most up-to-date data on how and why violence is occurring in their facility by unit. Facilities would have created workplace violence prevention plans, required training, a system for responding to and investigating incidents, required post-incident services to workers, and established and streamlined an incident reporting process.

This bill died in the House Appropriations Committee.

SB24-117 EATING DISORDER TREATMENT & RECOVERY PROGRAMS

AGENDA BILL

SENATORS LISA CUTTER AND FAITH WINTER AND REPRESENTATIVE CHRIS DEGRUY KENNEDY

This bill requires the Behavioral Health Administration to regulate all eating disorder facilities to ensure individuals are receiving trauma-informed care. It also stipulates the regulation of involuntary feeding tubes and isolation and provides programmatic oversight around cultural competency, dietary needs, and privacy.

ACCESS TO HOUSING, HEALTH CARE, SUPPORTS, AND SERVICES (CONTINUED)

HB24-1322: MEDICAID COVERAGE HOUSING & NUTRITION SERVICES

REPRESENTATIVES KYLE BROWN AND SHANNON BIRD AND SENATORS BARBARA KIRKMEYER AND ROBERT RODRIGUEZ

This bill directs the Department of Health Care Policy and Financing to explore the feasibility of seeking federal authorization to provide nutrition, housing, and tenant supportive services that address Medicaid members' health-related social needs.

SB24-055: AGRICULTURAL & RURAL BEHAVIORAL HEALTH CARE

SENATORS JANET MARCHMAN AND PERRY WILL AND REPRESENTATIVES MEGAN LUKENS AND ANTHONY HARTSOOK

This bill creates the agricultural and rural community behavioral health program within the Behavioral Health Administration. This program shall engage with community outreach on the behavioral health of farmers, ranchers, and other individuals involved in agriculture and rural communities; the bill creates a working group to discuss access to care in these communities and funding to support a convening of an annual summit focusing on these issues. It adds a reporting requirement between the Department of Agriculture and the BHA in sharing data in administering this program.

1115 WAIVER: INSTITUTES FOR MENTAL DISEASE (IMD) EXCLUSION WAIVER FUNDING REQUEST PROBLY

While not a bill, Mental Health Colorado fought for a budget request to ensure Medicaid patients are covered for inpatient mental health care for at least 30 days. Before these efforts, Coloradans on Medicaid were only covered for 15 days of inpatient care, which has resulted in individuals being prematurely discharged before receiving the necessary care. With the Joint Budget Committee's recommendation, the Department of Health Care Policy & Financing (Colorado's agency that administers Medicaid) could amend the existing waiver to include reimbursement for extended coverage for up to 30 days. This removes a critical cost barrier for some of the most vulnerable Coloradans to get the longer-term mental health care they need to stabilize.

REDUCE POTENTIAL HARM FROM DRUGS AND ALCOHOL

Drugs and alcohol have been a part of our landscape throughout history. From childhood onward, we thrive if we can reap their benefits while reducing their potential for great harm.

HB24-1003: OPIATE ANTAGONISTS AND DETECTION PRODUCTS IN SCHOOLS

REPRESENTATIVES BARBARA MCLACHLAN AND MARY YOUNG AND SENATORS CLEAVE SIMPSON AND DAFNA MICHAELSON JENET

This bill allows the adoption of a policy for maintaining a supply of opiate antagonists like Narcan on school buses. It extends existing civil and criminal immunity to school bus operators and other employees present on buses if they furnish or administer an opiate antagonist in good faith. Additionally, this bill allows an adopted policy to enable an employee to provide an opiate antagonist to any individual, including a trained student.

HB24-1028: OVERDOSE PREVENTION CENTERS POSTPONED INDEFINITELY

REPRESENTATIVE ELISABETH EPPS AND SENATOR KEVIN PRIOLA

The bill specified that the governing body of a municipality, which includes a city, town, and city and county, may authorize the operation of an overdose prevention center within the municipality's boundaries to save the lives of persons at risk of preventable overdoses.

HB24-1037: SUBSTANCE USE DISORDERS HARM REDUCTION

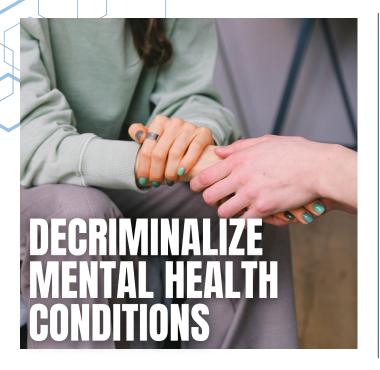

REPRESENTATIVES ELISABETH EPPS AND CHRIS DEGRUY KENNEDY AND SENATOR KEVIN PRIOLA

This bill was a part of the Opioid and Other Substance Use Disorders Study Committee and includes sections to ensure individuals seeking care who may have substances or paraphernalia are not arrested, adds immunity protections for people who distribute opioid antagonists, and authorizes a clean syringe exchange program to provide drug testing services through the program.

HB24-1045: TREATMENT FOR SUBSTANCE USE DISORDERS

REPRESENTATIVES RYAN ARMAGOST AND CHRIS DEGRUY KENNEDY AND SENATORS KYLE MULLICA AND PERRY WILL

This bill came from the Opioid and Other Substance Use Disorders Interim Study Committee and includes provisions to direct the Department of Health Care Policy & Financing (HCPF) to seek a waiver to provide screening, medications, and care coordination services up to ninety days prior to release from jail, prison, or a juvenile facility), requires HCPF to seek a federal waiver to provide partial hospitalization for substance use disorder treatment, and requires the Behavioral Health Administration to collect data from withdrawal management facilities. It supports providers that want to become a behavioral health safety net provider, and creates a contingency management grant program.

As many of those working in law enforcement understand more clearly than most, the criminal justice system is often our first and only—and completely inappropriate, ineffective, and costly—response to people's need for mental health and substance use care. Building healthcare capacity and supportive housing so that we can disentangle mental health and criminal justice will improve health outcomes, save taxpayer dollars, and enhance community well-being.

HB24-1355: MEASURES TO REDUCE THE COMPETENCY WAITLIST

AGENDA BILL

REPRESENTATIVES JAVIER MABREY AND JUDY AMABILE

HB24-1355 creates a community-based diversion program that supports the mental and social well-being of eligible individuals on the competency waitlist. It includes wraparound programming with high-touch case management, individualized support with recovery services and housing assistance, and support by Bridges of Colorado, subject to District Attorney approval and voluntary participation.

HB24-1054: JAIL STANDARDS COMMISSION RECOMMENDATIONS

REPRESENTATIVES JUDY AMABILE AND LORENA GARCIA AND SENATORS RHONDA FIELDS AND JAMES COLEMAN

This bill comes from the Legislative Oversight Committee Concerning Jail Standards, which extends the committee and requires each county jail to comply with the standards adopted by the committee beginning July 1, 2026. The bill creates a jail standards advisory committee to use peer assessors to ensure compliance with standards, provide recommendations for revising standards, and increase compliance. The bill also requires the attorney general to conduct assessments of jails and shall prepare a report of any special assessment. The advisory committee must also submit an annual report to the oversight committee.

HB24-1103: PROHIBITING TERM EXCITED DELIRIUM

REPRESENTATIVES JUDY AMABILE AND LESLIE HEROD AND SENATORS JUIE GONZALES

This bill prohibits training for law enforcement, emergency medical services providers, or other first responders from including "excited delirium" in training materials, bars peace offers from using this term to describe a person in an incident report, and bans the term as a cause of death on a death certificate.

END DISCRIMINATION

Mental health—like physical health—is part of who we are. We need to be increasingly understanding and compassionate with ourselves and others.

HB24-1079: PERSONS DETAINED IN JAIL ON EMERGENCY COMMITMENT

REPRESENTATIVES JUDY AMABILE AND REGINA ENGLISH AND SENATOR RHONDA FIELDS

This bill prohibits a law enforcement officer or emergency service patrol officer who takes a juvenile into protective custody from detaining the juvenile in jail. It also requires each local law enforcement agency that has taken a person into protective custody to provide an annual report to the Behavioral Health Administration that includes disaggregated and nonidentifying information concerning persons who were taken into protective custody in an approved treatment facility or detained in an emergency medical facility or jail.

HB24-1342: TEST ACCOMMODATIONS FOR PERSONS WITH DISABILITIES

REPRESENTATIVES MATT SOPER AND JENNIFER BACON

This bill requires a testing entity to grant an individual's request for accommodation on a licensing exam. This bill expands the definition of "testing accommodation" to be more inclusive, outlines what is required for an entity to grant an individual's request for an accommodation, and allows individuals to bring a civil action, which the attorney general may investigate.

SB24-048: SUBSTANCE USE DISORDERS RECOVERY

SENATORS KEVIN PRIOLA AND REPRESENTATIVES CHRIS DEGRUY KENNEDY AND MIKE LYNCH

This bill implements a voluntary designation process for recovery-friendly workplaces, creates a recovery school grant program in the Department of Education, allows a recovery community organization to receive grants through the recovery support services grant program for many pathways for recovery, and requires the Colorado Liquor Enforcement Division to adopt rules related to the location of alcohol beverages displays.

WELLNESS IN AGING

From childhood to old age, the quality of our lives depends on our mental health. Every phase of life brings challenges and opportunities for continuing mental growth and development.

HB24-1052: SENIOR HOUSING INCOME TAX CREDIT

REPRESENTATIVES MIKE WEISSMAN AND BOB MARSHALL AND SENATORS CHRIS KOLKER AND CHRIS HANSEN

This bill reinstates a refundable income tax credit for qualifying seniors, especially those who rent their homes, with incomes under \$75,000, who have not claimed a homestead property tax exemption. The amount of the credit depends on income and taxpayer filing status.

SB24-167: TRAINING FOR ENTRY-LEVEL HEALTH-CARE WORKERS

SENATORS JOANN GINAL AND JIM SMALLWOOD AND REPRESENTATIVE KAREN MCCORMICK

The bill authorizes the Department of Public Health and Environment to require each operator of an assisted living residence to require direct-care workers who provide direct-care services to residents of an assisted living residence to take a tuberculosis test and undergo a fitting test for a mask. This bill also requires each operation to require direct-care workers to complete training to provide specific services to residences.

LEGISLATION **WE OPPOSED**

This year, Mental Health Colorado continued to defend against policies that entangle people who have unmet mental health needs and substance use conditions within the criminal and juvenile justice systems. We will continue to oppose policies that criminalize mental health and substance use conditions because our friends, family, and neighbors deserve #CareNotCuffs.

HB24-1126: SUBSTANCE USE DISORDER TREATMENT AS BOND CONDITION BILL DEFEATED

This bill would have allowed courts to order treatment for a substance use condition as a condition of bond if a substance use disorder has contributed to the underlying offense.

HB24-1127: TRUTH IN SENTENCING PAROLE VIOLENT OFFENSES

This bill would have required individuals sentenced for certain crimes to serve at least 85% to 100% of the imposed sentence before the individuals would be eligible for parole.

HB24-1306: INCREASE PENALTY POSSESSION OF SYNTHETIC OPIATES

This bill would have increased penalties for possessing any quantities of synthetic opioids by eliminating the "knowingly" provision which protects defendants from more serious charges when they can establish that they were unaware of the nature of the substance in their possession. This bill would have criminalized many people who use substances.
